## Information Security

### Contact

#### Phone

0704 970 932

#### Email

ngvu.thdanh@gmail.com

#### Address

My Phuoc, Mang Thit, Vinh Long

### Expertise

DDoS Testing

Work Agility

Bug Recognition

Collaborative Skills

Quick Problem-Solving

### Language

French

English

### Certificate

Aug 2024 | Viblo Learning

**Web Security**

January 2025 | TCM Security

**Linux 100: Fundamentals**

October 2024 | Saylor Academy

**CS406: Information Security**

January 2025 | Université Numérique

**Objectif IPv6 - (IMT)**

December 2024 | GIAC - 3 CPEs

**Infosec IQ Security Awareness**

### Experience

2024 - Present

Code Toan Bug

#### Risk Analysis & Security Research

Identifying and analyzing vulnerabilities in the code, assessing risks, researching security flaws, and testing for potential exploits. The goal is to detect bugs and recommend fixes to enhance the security of the system.

2024 - Present

Grenoble INP - Esisar

#### CSAW RED Finalist & Interviewed

Reached finals in CSAW RED and selected for an interview at Grenoble INP - Esisar, showcasing strong cybersecurity skills and recognition in the field.

2024- Present

TryHackMe

#### Top 4 Vietnam, 233rd Globally

Ranked 4th in Vietnam, 233rd globally, and earned the Advent of Cyber 2024 certificate for cybersecurity skills

### Education

2023 - Present

Vinh Long University

#### Information Security

Pursuing a degree in Information Security, specializing in Red Team techniques, including penetration testing, vulnerability assessments, and simulating real-world attacks.

2023 - 2024

Fortinet Tranning

#### Associate in Cybersecurity

Gained in-depth knowledge of network security, threat management, and Fortinet security solutions. Focused on securing network infrastructures and implementing best practices to defend against cyber threats.

2022 - 2024

Cursa

#### Network Pentesting

Acquired practical skills in identifying, exploiting, and securing network vulnerabilities. Gained hands-on experience with penetration testing tools and methodologies to assess and strengthen network security.

### Awards

#### Hack The Box

Hack The Boo 2024 - Competition

Code Toan Bug Team

Ranked 533rd out of 6349 teams in Hack The Box 2024, demonstrating advanced penetration testing and problem-solving skills in cybersecurity challenges.

#### CSAW Europe

CSAW Red 2024 - Competition

Code Toan Bug Team

Ranked in the Top 6 in the CSAW Red 2024 competition, showcasing expertise in cybersecurity, penetration testing, and vulnerability assessment.
